

TO BLOW UP WASHINGTON.

AN ALLEGED ANARCHIST PLOT UNEARTHED BY POLICE.

STARTLING NEWS FROM THE CAPITAL.

H. J. Jaxon of Chicago, a French Canadian half-breed, said to be at the head of a conspiracy to blow things to kingdom come by means of an internal machine that exploded by the sun.

WASHINGTON, June 19.—An anarchist plot to blow up the public buildings in Washington has been discovered by the district police.

The leader of the anarchists is H. J. Jaxon, a half-breed French Canadian who has for years been closely identified with the Chicago Anarchists, and whose office has been located in the Times building in that city.

For weeks past a house at 1921 Vermont avenue in this city, where the secret meetings of the anarchists have been held, has been watched by the police and a man named De Masters, known both as doctor and professor, and an ex-Episcopalian minister, has attended the meetings and is the informant.

The formula from which the explosives were to be made has been obtained, the compound made and tested. It is the latest hellish device of the anarchists and explodes from the heat of the sun, throwing out a deadly poisonous vapor. No arrests have been made and the police refuse to reveal their full information and have sought to keep the story from the papers. Knowledge of the plot became, however, too generally known to prevent a leak.

Sergeant-at-Arms Bright of the senate was the first to receive any information. The vice-president was then informed; also the night watch at the capitol, and the speaker of the house. Secretary Carlisle was told of a plot against the treasury department, and the president was also informed of the situation. With the police working steadily on the case for weeks past, not enough information has been obtained upon which certainty of conviction could be assured, and for this reason arrests have been postponed day after day.

Jaxon's presence in the city was hinted at in the telegraphic dispatches before the arrival of Coxey. He came here before the commonwealth army, and rode over the route which Coxey would follow.

The information which De Masters brought was that Jaxon had expected to find no difficulty in organizing a strong association of Anarchists here, and that it was also expected that Anarchists would flock in here from all directions with the commonwealthers. Jaxon was disappointed in finding the local Anarchists, but on the day of the commonwealth parade rode from New York, Philadelphia and Chicago, and a meeting was held. A hint of this meeting was given the police at the time, but the suspects departed and the fear temporarily subsided.

Shortly after this Sergeant-at-Arms Bright received a letter which was of such an earnest nature warning him of a plot to blow up the capitol and other public buildings that he decided to investigate. It was one of hundreds of letters that he had received, but the earnestness manifested by the writer caused him to make an investigation. He consulted with Major Moore, superintendent of the District police, and the author of the letter was met per agreement, and proved to be an ex-preacher, De Masters, who had been taken in by the anarchists. De Masters was put under guard, and instructed to attend all the meetings. He did so, and made reports to the chief of police.

Word was finally brought that with the arrival of Frye's army, now in the Cumberland valley, there would be an influx of Anarchists and that the time for putting the plans into execution would then be ripe. It was decided to wait until then before making any arrests, and in the meanwhile Jaxon and his followers have obtained information that they were being watched.

Even with the knowledge that the facts were to be published, the police last night refused to give out the information in their possession as to the extent of the plot, or the names of the men who were associated with Jaxon. It is settled that eight men met regularly at 1921 Vermont avenue, but whether this comprised all the men in the plot could not be learned. Jaxon will be remembered as chief lieutenant to Louis Rell in the half-breed Canadian rebellion.

THE AGONY NEARLY OVER.

It is thought the tariff bill will pass the Senate this week.

WASHINGTON, June 19.—Senator Harris said when the senate adjourned Saturday that the tariff bill would pass the senate by Saturday, and when Senator Aldrich, the leader of the opposition to the bill, was asked what he thought of Mr. Harris' prediction, he expressed the opinion that it would not be entirely realized. It would come near it.

"I think," he said, "that by next Saturday night we shall be on the flag end of the bill."

Both declined to state whether there had been any negotiations for an agreement as to the time for the final vote between the leaders on the respective sides of the chamber. It is known, however, that the situation has been canvassed more or less in the numerous conferences which have taken place between Senators Cockerrell, Harris and Jones on the Democratic side and Senators Aldrich and Allison on the Republican.

WEALERS UNDER ARREST.

Seven Box-Car Loads Placed Under Guard at Fort Sidney.

OMAHA, June 19.—Seven box cars containing 230 members of the army that created such a disturbance at Julesburg and Ogallala, were hauled into Fort Sidney last night and placed under guard at the abandoned military barracks, where they will be held as prisoners until the court can dispose of their cases. They were in a most pitiable condition on their arrival, and had evidently a most wholesome contempt for sanitary regulations. They expressed great indignation at being taken to the fort, as they were expecting to be brought at once to Omaha.

More California Wealers.

EMERSON, Kan., June 19.—About seventy-five men arrived here over the Santa Fe Saturday night, claiming to be part of the California industrial army from Los Angeles. About thirty got away in squads by jumping trains. At 7 o'clock last evening the remainder boarded a freight train on the Santa Fe, but were ordered off. Refusing to obey the order, the train was backed up and they were informed it would not go out. They then got off and the train started again without them.

Sale of Oleomargarine.

WASHINGTON, June 19.—The treasury officials are in almost daily receipt of information showing the law of August 5, 1886, as to the sale of oleomargarine, is being violated in all parts of the country. These violations consist principally in selling oleomargarine at retail in packages not properly marked and branded, and offering it for sale after it had been removed from the original stamped packages. Steps are being taken to punish every violation of this act that they may discover.

HILL WANTS FREE COAL.

OBJECTS STRONGLY TO THE PROPOSED SENATE DUTY.

DEMANDS REDEMPTION OF PLEDGES.

The Mercury in the Chamber Registered 81 and the Senators Sweltered.—The Wood and Pulp Schedule Adopted Against the Strong Protest of the Republicans—Other Washington News.

WASHINGTON, June 19.—In the senate chamber this morning, the temperature was sweltering, the mercury standing at 81. While the senate was discussing a bill which had been introduced by Mr. Pepper, and favorably reported by the committee on agriculture, to pay \$2,500 for an invention that would utilize electricity or gaseous vapor as a motor for agricultural machinery, the tariff bill came up. At the request of Mr. Platt the two paragraphs, 298 and 299 of the silk schedule passed over Saturday were again passed over.

Schedule M—"pulp papers and books"—was taken up and Mr. Frye offered a protest against the first paragraph of the schedule, placing a duty of 10 per cent on mechanically ground wood pulp and chemical wood pulp, bleached and unbleached. The production of wood pulp, he said, was an enormous industry, employing 70,000 men, turning out a product valued at \$35,000,000 and paying an annual wage of \$23,000,000. Under the operation of the present duty the cost of paper had greatly decreased. Wood pulp had decreased in price from four and one-half cents per pound to one and one-fourth in the last ten years. It was produced in twenty-nine states, but principally in Maine and New York. He appealed to the other side to make the duty specific instead of ad valorem and proposed an amendment to substitute equivalent specific rates, say \$2.50 per ton on wood pulp mechanically ground, chemical wood pulp unbleached \$5 per ton and bleached \$6.50 per ton. The Democratic members of the finance committee refused to accept the amendment and it was rejected—30 to 25.

The committee figures on the various other articles in the pulp and paper paragraphs were adopted and the senate took up schedule N—sundries. The following rates were fixed without debate: Hair, pencils and feather dusters 30 per cent; brooms 20 per cent; button forms 10 per cent; agate buttons 25 per cent; pearl and shell buttons one cent per line and 15 per cent; ivory, glass, bone and horn buttons 35 per cent; shoe buttons 25 per cent.

The house bill placed coal on the free list. The finance committee amendment placed a duty of forty cents per ton on bituminous coal and shale, fifteen cents on slack and culm and fifteen per cent ad valorem on coke. As soon as the clerk had read this paragraph Mr. Hill and Mr. Pepper jumped to their feet. The New York senator was recognized and sent to the clerk's desk an amendment to relegate bituminous coal and shale to the free list. He made a speech in support of free coal and the redemption of Democratic pledges.

Mr. Hill said that he reserved the right to vote for or against the tariff bill when he should see what it is as a finality, passionately exclaiming: "God knows what the bill will be like when it passes the senate and comes out of conference. God knows how many more extortions and conclusions will be wrung from the unwilling hands of the committee."

The vote on Mr. Hill's motion was yeas 7, nays 51. Messrs. Allen, Hansbrough, Hill, Irby, Kyle, Pepper and Washburn voted yea.

BRECKINRIDGE WILL NOT ACT.

The Kentuckian Concludes Not to Attempt to Run the Deficiency Bill.

WASHINGTON, June 19.—Breckinridge of Kentucky, reported the deficiency bill to the house to-day from the committee on appropriations, but the fact that it has at length been definitely determined that he shall not manage it on the floor deprives his action of important significance. He is said to have determined that his candidacy will make such demands upon him as will not enable him to attend to the bill. If he holds to this the threatened sensation will be avoided.

The police say that the gates of the railroad crossing were up and a switch filled with box cars obstructed the view of the track on which the express train was approaching.

BENNETT'S ARMY.

Another Detachment Captures a Boat and Goes Down the Missouri.

KANSAS CITY, Mo., June 19.—The Coxey army encamped in the East bottoms is fast going to pieces. About fifty of them stole the flat boat last night which was given to the army Saturday. Before leaving they loaded the boat with nearly all the provisions in camp and this morning were many miles down the river. The desertions of Saturday and Sunday leave only seventy-five men in camp, and it is almost certain that all of these will be gone by to-night. General Artz procured another flat boat this morning from a fisherman which will hold fifty men. A rental of \$2 a day and all the fish the men can catch is to be paid for the use of the boat.

Thomas M. Bayne, the Well-Known Pennsylvania, Takes His Own Life.

WASHINGTON, June 19.—In a fit of despondency resulting from long and incurable illness and depressed by a sudden and violent attack of dangerous symptoms, Thomas M. Bayne, for seven terms representative of the Allegheny district in congress, at 10:15 o'clock Saturday morning forestalled the end by sending a bullet through his head and killed himself instantly. At the time he was alone with the servants in his handsome and luxurious home at 1629 Massachusetts avenue, in the most ultra-fashionable part of the city, his wife being temporarily absent in Philadelphia.

Mr. Bayne was one of the best known Republican politicians in Pennsylvania and was on the ways and means committee in the last congress. THE TORCH AT BEVIER.

Italian Strikers Charged With Having Fired Four Kansas & Texas Buildings.

BEVIER, Mo., June 18.—Saturday morning at 1 o'clock the mill stable and slaughter house of the Kansas and Texas Coal company was set on fire and a team of mules was lost. A dressed beef was stolen.

While this fire was in progress, a dwelling house close to mine 43 was set on fire. The guards on duty there fired about twenty shots at the shadows of the firebugs whom they could see stealing away.

No sooner had this building burned than another building in another part of the ground was set on fire and destroyed.

These fires caused great excitement here. All the English-speaking miners denounce the crimes in the strongest terms. It is believed that the attacks are being made by a well organized gang of Italian strikers and the miners in general have nothing to do with them.

The kidneys separate from the blood, as it passes through them, impurities for which the final medium of liberation is the bladder. When their function is suspended direful results ensue. Among these are dropsy, Bright's disease, diabetes and maladies which terminate in some case of these. Hostetter's Stomach Bitters stimulates the kidneys, not as an unmediated alcoholic stimulant would by exciting them, but by gently impelling them to renewed action and perpetuating their activity and vigor. Thus the blood is once more insured purification and the organs themselves saved from destruction. Malaria, constipation, liver complaint, nervousness, dyspepsia and rheumatism, are all thoroughly remedied by the Bitters, which is, moreover, a most thorough appetizer, general tonic and sleep promoter.
